

Most of the time we try to love God and everyone in God's family the best we can.

But sometimes we get selfish.

Sometimes we do not show love and concern for others as Jesus did.

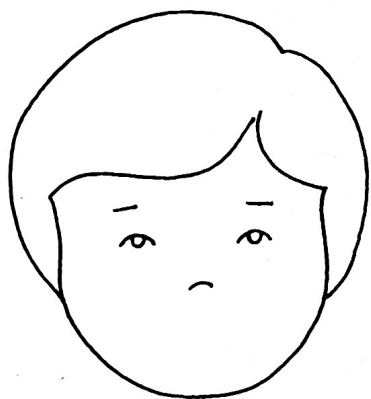

Sometimes what we want seems more important than loving God and others.

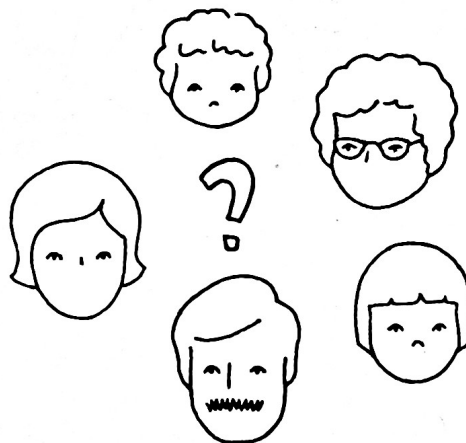

When we choose to do what we want instead of obeying or sharing or being kind, often we don't realize that we hurt other people and ourselves.

Think about or imagine a time when you did something on purpose that was really wrong.

How did you feel?

How do you think the people around you felt?

The bad things we do affect others.

Selfishness is more than not sharing toys.

We are selfish when we only think of what we want and don't care about anyone or anything else.

Questions to think about:

1. What are some other kinds of selfishness?
2. Was Jesus ever selfish?
